AUTOMATIC LINE LABELLING MACHINE
Pk-LINE-Easy R-R

DESCRIPTION

Pk-LINE-Easy-R-R (Roto Rollers) is an automatic machine for the application of labels built for industrial work cycles. It can apply one or two wrapping labels around round products. It uses high-quality brushless motors, a color touch-screen control panel, 100 programs and much more, placing it at the top of quality for this category. Various accessories are available such as the inkjet marker for variable data printing, photocell for transparent labels, etc. Pk-LINE-Easy, fast, compact, high quality, made in Italy, excellent quality / price ratio. Available in version for labels with a height of 100mm or 150mm. Pk-LINE-R-R is equipped with advanced technical solutions to simplify ease of use as much as possible. It uses encoders for the automatic adjustment of the speed of the labeling head in relation to the speed of the roller. In practice, the operator only needs the label measurement and application start delay data to be entered in the control panel to start production. Pk-LINE-Easy is also available in the R-V (Roto Vertical) version with vertical rolling belt for rolling the product for the application of a wrap-around label.
