COMPACT AUTOMATIC LABELLING MACHINE
# Pk-X and Pk-X 150

Compact automatic labelling machine 100mm. Colour touch-screen controller 50 programs, all standard functions. 250mm reel holder; exclusive disc brake; positioner with integrated lever. Up to 200 pcs / min, up to 40 mt / min.

Pk-X is a very compact labelling head that can be easily inserted into all automatic lines. It is in fact the machine used in our automatic lines. It can be equipped with inkjet marker and photocell for transparent labels. Head management is entrusted to the 3.5 "colour touch-screen controller that allows you to make the best use of all the machine functions such as programs, management of the encoder for automatic speed adjustment, of the encoder for the adaptation of inkjet printing, the In / Out for the manage-
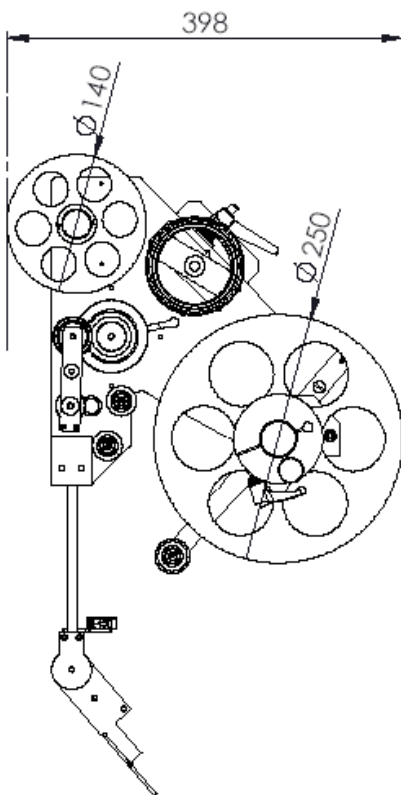

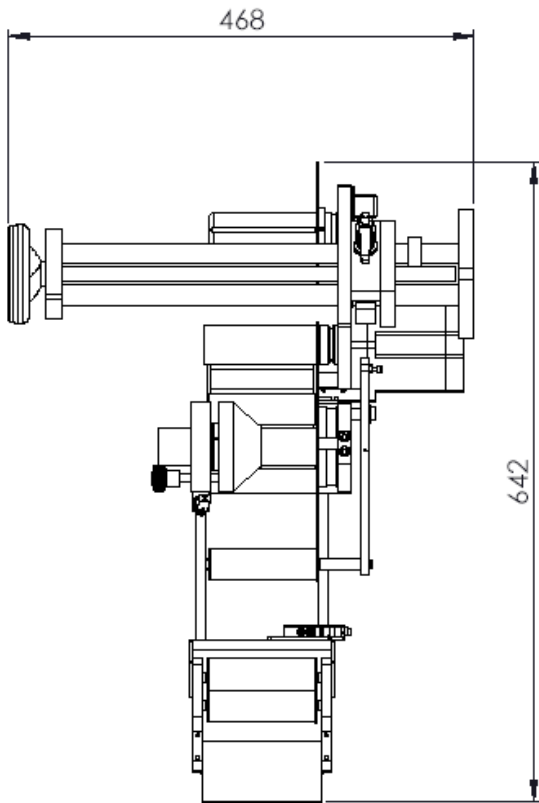

DESCRIPTION

ment of external machinery or traffic lights to signal functions. Pk-X is built in stainless steel and very thick aluminium, very robust and equipped with an exclusive disc brake for the management of the paper tension that optimizes the functionality, also offering the possibility to use reels with internal or external winding without any difference. End of reel control and flag label emission included.
