# SEMI-AUTOMATIC SEAL APPLICATOR (TAMPER EVIDENT SEAL)
# Pk-TAMP

## DESCRIPTION

Pk-TAMP is a semi-automatic applicator of seal and security labels defined as Tamper Evident Seal. Pk-TAMP can apply round transparent or non-transparent self-adhesive labels with a diameter between 30 and 50mm. Apply typically round labels to the edges of cans to seal and guarantee the safety and integrity of the products. Non-removable anti -burglary labels can also be used. Compact and solid, it is built entirely in AISI304 stainless steel to be able to be used even in particular environments. Adjustable label position to optimize the application point. Very simple to use and very effective.
